

The background of the cover is a microscopic image. It features several Y-shaped structures, likely antibodies, in shades of blue and yellow, scattered across a dark blue field. In the lower right corner, there is a large, textured, red spherical structure, possibly a cell or a cluster of cells. The overall lighting is dramatic, with a gradient from dark blue at the top to a lighter, more vibrant blue and red at the bottom.

# AVANCES EN EL DIAGNÓSTICO Y TRATAMIENTO DE LAS ENFERMEDADES ALÉRGICAS
